

# PolarSlide™ Sliding Door

## Aluminum Pre-Assembled Aisle End Door

WE KEEP  
THE CLOUD  
COOL™

The PolarSlide™ Aluminum Containment Door is delivered completely assembled and ready to install, saving installation time in the field.

### Clean Design

- The PolarSlide™ Sliding Door is pre-assembled with a compact design that minimizes foot print.
- Top slide rails and a special self-closing cartridge provide automatic closing that shuts with a soft close.
- Simple leg post/header design with full length window panes.

### Quick Install

- The PolarSlide™ is designed for quick and trouble free installation.
- From box to operating in less than an hour.
- The door arrives completely assembled and ready to install right out of the box.
- Light weight aluminum construction makes moving and handling easy.
- Only four connections are required for installation, two to the floor and two to the racks or supporting infrastructure.

### Features

- Dual and Single Models
