

# PolarSnap™ Tool-less Metal Blanking Panels

## PolarSnap Tool-less Metal Blanking Panels

Server rack blanking (filler) panels with simplified mounting design for easy installation.

Pivot pins on one end and single slide latch on the other allow easy swing-in installation. Insert pivot pins into rack rail holes and snap slide latch into place. 1U & 2U sizes available.

Pivot Pins on One End

Single Slide Latch on Other End

## Product Details

Panels have a gasket in place that seals against the 19" vertical rail preventing unwanted air leakage. Low profile design does not interfere with vertical airflow. Panels are manufactured with 1.2 mm thick cold rolled steel and have a black powder coat finish. Packed in boxes of 10 panels.
