

# PolarPlex™ FMI

## Floor Mounted Infrastructure

### Floor Mounted Infrastructure Solution

Polargy's PolarPlex™ Floor Mounted Infrastructure (FMI) saves construction costs and lowers ceiling weight load by placing the weight of the containment and cable and power management onto the floor in an easy to assemble system.

### Floor Mounted Cable, Power and Containment System

- Sized to aisle width, ceiling height and rack height
- Engineered for large weight capacities
- Puts weight of infrastructure onto floor rather than on ceiling
- Easier to install than ceiling strut system
- Flexible sizing of different sections
- Provisioned for filling empty rack spaces filled with simple to install and remove panel system
