

POLARGY

We Keep The Cloud Cool™

Market Leading Hot & Cold Aisle Containment

Polargy is the leading manufacturer and turnkey solution provider of data center hot and cold aisle containment systems. We help our customers achieve successful outcomes for their airflow improvement projects. Polargy's containment systems are installed across the world with customers including Verizon, Facebook, Pixar Animation, and Dell.

Retrofit Projects

Meeting customer ROI goals and safely transitioning to new cooling environments are priorities for Polargy. Typical results for our customers include capturing stranded capacity, eliminating hot spots, and saving energy. Payback periods are usually less than 2 years.

New Construction Projects

With Polargy at the helm, containment projects go quickly and smoothly. This is especially important as containment is the last phase of a construction project. Polargy's informed designs, intuitive line of products and experienced installers help ensure on time delivery of single site or multi-site projects.
