27.5"/700mm, Vertical	PXRTBT700-90	29.5" wide x 24" tall x 2.9" deep	3.9 lbs
30.0"/762mm, Vertical	PXRTBT762-90	30.0" wide x 24" tall x 2.9" deep	4.0 lbs
31.5"/800mm, Vertical	PXRTBT800-90	31.5" wide x 24" tall x 2.9" deep	4.2 lbs
23.6"/600mm, Angle	PXRTBT600-45	23.6" wide x 17.3" tall x 18.7" deep	3.1 lbs
24.0"/609mm, Angle	PXRTBT609-45	24.0" wide x 17.3" tall x 18.7" deep	3.2 lbs
27.5"/700mm, Angle	PXRTBT700-45	29.5" wide x 17.3" tall x 18.7" deep	3.9 lbs
30.0"/762mm, Angle	PXRTBT762-45	30.0" wide x 17.3" tall x 18.7" deep	4.0 lbs
31.5"/800mm, Angle	PXRTBT800-45	31.5" wide x 17.3" tall x 18.7" deep	4.2 lbs
54.0" End Cap, Vertical	PXRTBT1372-90	54.0" wide x 24.0" tall x 2.9" deep	7.4 lbs

Call for custom sizes

Fit to Rack Top

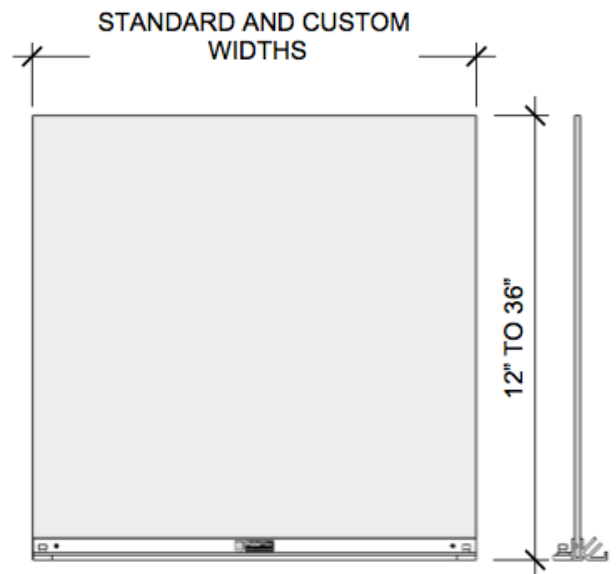

- Rack Top Baffles require a minimum of 3 inches of unobstructed depth across the entire width of the cabinet for secure attachment.
- There are three positions along the extrusion base for alternative magnet positioning to provide flexibility for attaching to various rack top types.
- The Rack Top Baffles are suitable for most standard width cabinets with solid, perforated or semi-steel tops. The baffles will not work on aluminum framed cabinets or open framed racks.
- Each panel is delivered with an alignment clip to help align adjacent panels.

Materials

- The PolarPlex Rack Top Baffles features a clear, twin wall polycarbonate panel mounted in an aluminum extrusion base.

Fire Rating

- The twin wall polycarbonate panel meets ASTM e84 Class A flame and smoke spread.
- The PolarPlex Rack Top Baffles are typically deployed in an open top architecture which generally avoids obstructing fire suppression systems. However, the final approval for compliance resides with the local authority having jurisdiction (AHJ).
