THE CLOUD  
COOL™

## Modular Data Center Walls

Polargy's solutions for managing real estate in the white space are flexible, modular, and lightweight. Our wall systems are configured for privacy suites, fan walls, CRAH galleries, suite dividers and temporary construction partitions. Polargy possesses the toolset, product expertise, and experience to design and deliver the right partitioning system for your data center.

### Key Benefits

- Light weight design makes handing, moving and redeploying easier.
- Design significantly reduces field labor.
- Sturdy structural design provides cage-level security.
- No dust or debris compared to drywall options.
- Panel inserts are easily cut to painlessly field modify panel sizes.
