Why Crews Like PolarSwing

What Matters on Site

Minimizes Footprint

Self-Closing, Soft Closing

Simple Leg Post/ Header

Install in a Flash

Light and Durable

How PolarSwing Delivers

Compact design minimizes the footprint, so there is no threshold to trip over and no extra floor space wasted.

Self-closing hinges help keep the door closed, to maintain airflow containment.

Has a simple leg post/header design with full length window panes.

Door arrives fully assembled; from unboxing to operational in under 1 hour. Only four connections are required for installation, two to the floor and two to the racks or supporting infrastructure.

Lightweight anodized aluminum construction makes moving and handling easy.

Standard Features

- Open Left and Open Right
- Self-Closing Hinges
- No Threshold
- Anodized Aluminum Finish
- 42U, 45U, 48U and 52U heights
- Clear 1/8" Polycarbonate inserts

PolarSwing™ Doors turn the last opening in your containment line into a clean, compact, self-closing seal — shipped fully assembled and installed in under an hour with just four simple connections.

At **Polargy**, we design and manufacture configurable structural data center solutions for the world's most advanced technology companies. Our speed, long-lasting performance, and savings reduce the time in design and construction, ensure energy efficiency, and create operational efficiencies.
